Compass 360° Photo Booth Setup

Rods Mounting

- Loosen all Allen bolts of the 360° rod adapter on both sides of the Dolly Base using a 5mm Allen key, then remove them.

- Insert the rod into the 360° rod adapter of the Dolly Base.
- Align the holes and reinsert the Allen bolts.

- Tighten the bolts using a 5mm Allen key to secure the rod firmly.
- The rod is now securely attached to the 360° rod adapter of the Dolly Base.

- Similarly, insert the second rod into the other side of the 360° rod adapter on the Dolly Base.
- Align the holes and reinsert the Allen bolts.

- Now, tighten the bolts with the 5mm Allen key.
- The second rod is now securely attached to the 360° rod adapter of the Dolly Base.

NOTE: Secure the rods with Allen Bolts on both sides.

Adjustable angle Rod Mounting

- Loosen the bottom knob and grub screw using the 4mm Allen Key.
- Insert the adjustable angle rod into the main rod and tighten the knob to secure it.
- Retighten the grub screw with the 4mm Allen key.
- The adjustable rod is now properly attached.

Ball Head Mounting

- Securely attach the Ball Head to the mounting section of the adjustable angle rod. Rotate it until firmly tightened.

Feature: Proaim Compass Turntable Dolly pans 360° effortlessly & smoothly to make the cinematic effect in professional video shoots.

Capture Different Angles

Offers 360° Movement

Camera Mounting

- Loosen the ball head knob and remove the camera plate.

- Loosen the camera bolt of the camera plate with the help of screw driver **(Not Included)** and remove the BS100.

- Now attach the camera plate to the camera **(Not Included)** and tighten it with the screw driver.

- Slide the camera onto the camera plate and tighten it using the knob.

Feature:

Wide Compatibility: The stand interface is compatible with all single-lens reflex, micro-single cameras, phones, and iPads.

Weight Mounting

- Insert weights onto the rod based on the camera's weight **(Not Included)**.

Ball Head Rotation

- Use the knob to adjust the movement of the center ball.
- The ball head enables smooth circular motion, allowing you to control its movement by loosening or tightening the knob.

Adjustable Angle Rod Positioning

- Loosen both knobs on the adjustable rod to reposition it.
- Once the position is set, re-tighten the both knobs to secure it.
