Smart-Lock Drawer Setup

- Use a screwdriver (**Not Included**) to drill holes into the cart's mat, aligning them with the pre-drilled holes underneath the cart Shelf.

- Remove all button heads from the drawer using a 2.5mm Allen Key.

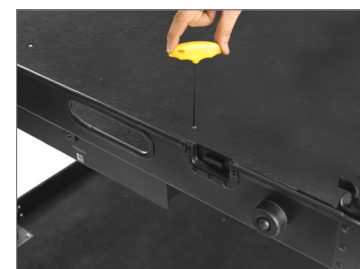

- Align the drawer with the bottom of the cart Shelf ensuring the holes on both the drawer and cart match.

- Insert a button head and tighten it securely using a 2.5mm Allen key.

Note: For the Atlas Cart, use the supplied Allen bolts and securely tighten them using the provided 3mm Allen key.

- Repeat the process for all button heads.

Note: The drawer is securely affixed to the cart through the drilled holes, ensuring a stable and secure fit.

Drawer Lock Installation

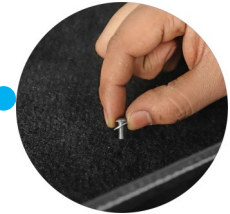

- Remove all button heads from the drawer lock using a 2.5mm Allen Key, as shown in the image.

- Using a screwdriver (**Not Included**), drill holes into the cart's mat, aligning them with the pre-drilled holes underneath the cart for the lock.

- Insert the button head by properly matching the holes.

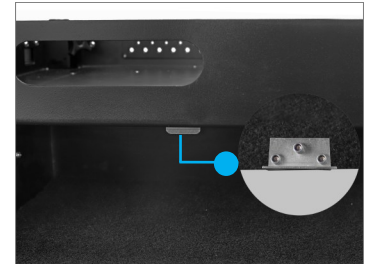

- Insert the nuts from the bottom side.

Note: Hold the nut using a Pliers (**Not Included**) and tighten it using an Allen Key.

- The lock is now securely installed on the cart.

Note: The Smart-Lock Drawer is a spacious, fully enclosed compartment designed to store various video production accessories securely and provide easy, organized access when needed.

Note: Note: If you own the latest version of Victor V1, Victor Lite, or Atlas Cart, you'll find that the cart comes equipped with pre-drilled holes for your convenience.

Set Drawer Number Lock

- Lock the drawer before setting the combination.

- Using a Lock Reset key, press and hold the reset button located at the bottom of the number lock. Set your desired combination, then release the button.
- Your drawer lock is now set to your preferred combination.
