## ■ What's In The Box

Please inspect the contents of your shipped package to ensure you have received everything that is listed below.

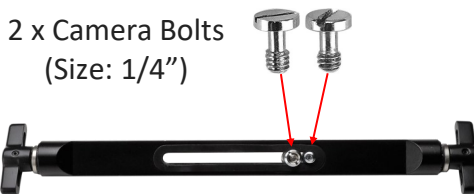

Surfer Helmet Rig

Weight Plates : 10 pcs

Adjustable Side Arms

Mounting Bracket

iPhone Adapter

Arca-Type Quick Release Base Plate

3 x L Type Allen Keys  
Sizes: (4mm, 3mm, 1.5mm)

## ■ Surfer Helmet Rig Setup

### Adjustable Side Arms Assembly

- Using an Allen key, loosen and remove the Allen bolts from one side of the helmet.

- Repeat the same process on the other side of the helmet.

- Loosen the knob on the adjustable side arms and fully extend the arms.

- After fully extending the arms, tighten the knob to lock them securely in place.
- Align the side arm with the helmet's thread properly.

- Align the camera, insert the bolts, and use the Allen key to tighten and secure them.

- Follow the same steps to secure the camera on the other side of the helmet.

- Loosen the side knob of the mounting bracket and remove it.

- Loosen and remove the knob on the other side as well.
- Align the mounting bracket with the holes of the adjustable side arms.

- Insert the side knobs into both sides of the mounting bracket and securely tighten them.

## Weight Plates Assembly

- Loosen and remove the weight stopper knob on the back of the helmet rig.

- Insert the weight washer at the back of the Helmet, as shown in the image.

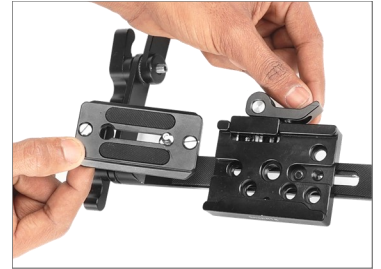

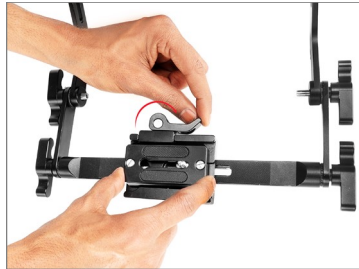

- Add washers according to the setup weight, and then secure them by tightening the stopper knob.

- Attach the quick-release plate to the camera platform knob and properly secure it in place.

- Remove the quick-release plate by loosening its knob.

- Attach the plate to the bottom of your camera (Not Included), and tighten it using a screw driver.

- Mount the camera (Not Included) on the quick-release plate and then secure it using the provided knob.

- Loosen the knobs on either side of the Helmet Rig and then position can be set by twisting the camera platform.

- Loosen the center knob of the Helmet Rig and set the position according to your requirement.

- Tighten the knob to secure the position.

**NOTE:** Tighten the knob after matching the threads of the knob of the Helmet Rig to properly secure it with optimal gripping.

## Position Adjustment (Angle + Height)

- To adjust the position of the Helmet Rig, loosen the button head with the Allen key and set the angle according to your setup requirement.

- After setting the position of Helmet Rig, secure both the bolts by tightening them properly with the help of Allen key.

## iPhone Adapter Assembly

- Secure the I-phone adapter holder by attaching it properly to the knob on the helmet's camera platform, as shown in the image.

- Attach your I-phone in **(Not Included)** I-Phone Adapter holder.

## Accessory Mounting Flexibility Front, Top & Side Plates with 1/4"-20 Threads
